No Limit Texas Holdem Tournament Poker Charts: 60bb

8 max 60bb 1bb ante MTT GTO Ranges

The first step in becoming a successful poker player is learning solid preflop ranges.
To master 60bb preflop play in 8 max NLHE Tournaments, a good set of MTT poker charts are essential.

These NLHE MTT preflop charts show you which hands you should call, fold or raise in the most common situations with a stack of 60bb. Opening ranges, facing a raise, and facing a 3bet for every position.

With these 60bb MTT ranges, you'll be better equipped to make correct plays more often and improve your chance of playing a winning strategy.

How to Use the 8 max MTT Preflop Range Charts

There are poker charts for the three most common types of preflop situation.

1. The Raise First In (RFI) Ranges show which hands to play in each position when all other players have folded to you.
2. The Facing a Raise (vs RFI) Ranges show which hands to play from each position when one player acting before you raises first in.
3. Facing a 3bet (vs 3bet) Ranges show which hands to play when you have raised first in and a player acting after you re-raises you (3bets).

These MTT preflop ranges are simplified versions of the strategy output by GTO poker solvers.
GTO strategy involves a lot of mixing, which means that a particular hand combo may be raised 18% and folded 72%.
Each poker hand chart has been simplified so that the frequency of an action for each hand combo is rounded to the nearest 50%. If you see a hand with a mix of colours, it means you should take one action half the time and the other action half the time. You can either use a randomizer (e.g. one action if high card first, other action if small card first) or base you action on your reads of your opponent, e.g. if they play too tight or too loose.
This makes it easier to learn a solid base strategy and implement in game, without losing too much accuracy.
